## COMPOSITION

- COTTON 86%
- POLYESTER 14%

## GAUGE

- 5G-1P

## TYPE OF YARN

- LOOPYARN

## COLOR STOCKS

- COLOR STOCK SERVICE

## DESCRIPTION

DENIM LOOP is a loop yarn which has denim-like colors. Irregular loops enable them to develop a unique look to knitted fabric even with plain stitches.

The refreshing denim colors are suitable for spring and summer knitwear.

Supima cotton which is an ultra-long cotton, is used for this quality. The beautiful luster of supima cotton creates a sense of luxury.

This quality is dyed with special technique, please note that knitted fabric might have color spots or unevenness. Please note that the grade is 2-3 for color fastness to wet rubbing.

It is necessary to make specific trials in your own knits before starting production since the final result always depends on your equipment and the tension and stitch you choose.

## WASHING INSTRUCTION
