- STRAIGHT

COLOR STOCKS

- ALL COLOR STOCK SERVICE
- OWN COLOR MINIMUM:3KG

DESCRIPTION

LUCIA is a sumptuous material which is double-mercerized on the extra-long staple cotton GIZA. This double mercerization is usually used for jersey material. (First, mercerized on the yarn. Second, on the fabric) LUCIA is processed in a different way referring to its method, that is mercerized twice on the yarn. It enables to display more delicate and beautiful sheen compared with single mercerization. Mercerized yarn giving them a brilliant sheen and smoothness. It also accepts the dye much better and the color come out deeper.

※NOTICE

Please note that it might happen a dyeing speck especially in mid-dark color due to the characteristics of the mercerized yarn. Our focus will be on quality management, and we might not be able to meet your request if you need to fix or return.
