DESCRIPTION

MIERU is translucent yarn made of polyamide and polyester which is light and delicate. It has beautiful luster and transparency.

*** NOTICE**

MIERU is fragile that is not recommended back-winding the yarn. It may cause yarn brekage & stainage.

MIERU must press before wash. Over-heated drying may causes permanent crease.

Over-heated or direct pressing may results color variation & affect color fastness.

Iron setting temperatures should be 110°C (230°F).
